

No theft prevention device can claim 100% prevention or rate of recovery.

Vehicle etching is one of the **easiest ways** to **prevent auto theft.**

A permanent number etched on your car is one of the most cost effective ways to discourage auto theft.

EasyCare body panel etching is an easy way to protect your vehicle. These specially designed labels are placed on eight different parts of your vehicle.

They are non invasive and permanent markers. Even if the label is removed, the unique ID number will still be visible with a special light.

\$3,000

When the customer's primary comprehensive insurance company has declared the vehicle a total loss as a direct result of an unrecovered theft.

Plus \$2,000

Replacement allowance at the original selling dealer to used toward the purchase or lease of a replacement vehicle.

(This credit must be used within 120 days of the date of loss or it will be null and void.)

Or \$1,000

In the event such failure to prevent theft results in the vehicle being stolen but recovered partially damaged within 30 days of the theft, up to \$1,000 partial loss deductible reimbursement directly to the customer.

What Every Driver Must Know

How to Help Reduce Auto Theft/Carjacking

Auto theft costs motorists millions of dollars each year. Be aware of your surroundings, especially who is around your vehicle, whether you are driving or leaving your vehicle in a parking lot. When parking your vehicle, park in a well-lighted lot, close all windows, lock all doors, and do not get out of your vehicle. If you are locked up, call the police. Then call 800 242-THIEF. In a carjacking, the owner is forced into the vehicle by force or threat of force. When you are confronted with a carjacking, do not resist. Get into the vehicle and drive to a safe place. Call the police.

Other Safety Tips

- Keep your vehicle in good working condition.
- Have your vehicle identification number (VIN) chemically etched on the car window and main parts to help prevent your car from being stolen for parts.
- Alarms and interlocks to prevent other kinds of car theft can also discourage amateur carjackers.
- Tell people your route and estimated time of arrival at your beginning and ending stops.

Vehicle **etching** deters **theft** of your **vehicle** in the following ways:

- Illegal chop-shops can not dispose of etched parts
- Vehicle etching dramatically reduces the value of a vehicle to thieves
